

RSSTM LTF

- patented -

TIMBER FRAME FASTENER

Star drive #30 applies approximately 650 lbf torque energy

patented washer type head reinforced shoulder Produces extreme pressure pulling the log down, eliminating the need to add a washer as required for common lag screws. Head can be countersunk 1"-3" without pre-drilling a countersink hole.

case hardened steel CLIMATEKTM coating, ACQ Approved. Lifetime limited warranty.

"CEE" thread Exclusive "CEE" thread slightly enlarges hole for screw shank and allows log to settle without restriction.

3/8" x 4" thread Eliminates pre-drilling as required for the common lag screw. Complete and effective installation in one operation. For technical specifications see RSSTM Standards.

patented W-CutTM Very sharp rolled threads, provide extreme pulling and withdrawal power.

Zip-Tip Slices groove for next thread, reducing tension and pressure on fastener providing ease of installation.

Zip-Tip For quick and easy starting.
